Problem-Based Learning

Grading consist: "Above average"

"Pass/ Meet expectation"

"Fail/ Below expectation"

Treatment on patients starting from year 2 onwards

Whole patient care/ Polyclinic (Not in disciplinary base)

BDS Curriculum

Stress as Dental Student

- Transition to PBL
- Patients
- Clinical Tutors
- Dental Surgery Assistant
- Dental Technicians
- Keyskills

Patients

- Contact, communicate and booking all by ourselves
- Patient expectation vs our ability and hospital policy
- Lengthly appointments in early years in clinic
- Commendatory as well as Complaint

Keyskills

- Specific assessments on knowledge, skill and patient management
- e.g. Radiograph taking, Extraction, Tooth Restorations etc.
- Prepare the patient's condition and manage to book patient back on specific time slot for exam
- Competition for a seat for examination among students
- Tutors standard
