

Dr Scott Border
Principal Teaching Fellow in Anatomy
School of Primary Care, Population Sciences and Medical Education
Faculty of Medicine
University of Southampton, UK

Biography:

Dr Scott Border is a Principal Teaching Fellow in Anatomy who has just completed a 4-year term as Deputy Head of Medical Education in the Faculty of Medicine, University of Southampton. He is a Fellow of The Anatomical Society and the current Chair of its Education Committee. Scott is also a Senior Fellow of Advance Higher Education. In 2019 he was awarded a National Teaching Fellowship for his innovative work and impact in the field of anatomy education.

At Southampton, Scott has developed a thriving and internationally renowned centre of excellence for clinical neuroanatomy education that has served to vertically integrate the subject within the medical curriculum. He is driven through his passion for working in genuine partnership with students which reflects all aspects and levels of academic engagement.

Scott has become a leading expert on the efficacy of near-peer teaching in medical education and has published extensively, given invited keynote talks, and delivered workshops at numerous international scientific meetings. He is the founder of the prestigious undergraduate and postgraduate neuroanatomy competition which, over eight years has had a meaningful impact upon the career progression of countless UK students and junior doctors. Scott has pioneered innovative open access digital learning tools in neuroanatomy education which have been quality assured by leading learned societies and The Royal Colleges. His online platform - Soton Brain Hub now has an established global reach.
